# My Personal Online Bookstore

RMIT University Vietnam

Course: COSC2430 Web Programming

Semester: 2023A

Assessment: Assignment 1

Student: Phan The Hung

ID: s3926216

Table of Contents:

I. Introduction

This project is to create and develop an online bookstore that allows users to search for and purchase their book of choice. The website will feature a user-friendly interface that allows users to look through a variety of book options and buy their preffered book. The objective of this document is to provide a detalied overview of the technicals aspects and features of the website, in addition to help in discussing the implemtaion details and any possible difficulties during the development process.

II. Project Description

III. Implementation Details

IV. Conclusion

Overall, we are pleased with the final product and feel that we have achieved the objectives set out in the project brief. However, there is always room for improvement, and we have identified several areas that could be further developed in future iterations of the website. These include improving the recommendation system, further enhancing security measures, and implementing additional payment options.
